

Staff Position in Experimental Nuclear Physics at Argonne National Laboratory

The Physics Division at Argonne National Laboratory (<http://www.phy.anl.gov>) invites applications for a staff position in experimental, low-energy nuclear physics. The criteria for selection will be based on scientific excellence and potential for original research.

The Physics Division operates the ATLAS accelerator as a National User Facility. The present staff is engaged in research at ATLAS and elsewhere in the areas of nuclear structure, nuclear astrophysics, reaction dynamics and fundamental interactions.

Candidates are expected to exhibit a promise for excellence in research and to have a minimum of two years of postdoctoral experience. The appointment is expected to be at the Assistant Physicist level or at a more senior level, depending on qualifications.

For questions regarding the position, please contact the chair of the search committee, John Schiffer at schiffer@anl.gov. Interested candidates should send a detailed resume, along with a list of publications, and the names and addresses of three references through the Argonne web site at <http://www.anl.gov> under job search for requisition number 310315 PHY. Argonne National Laboratory is a U.S. Department of Energy laboratory managed by The University of Chicago.

Argonne is an equal opportunity employer, and we value diversity in our workforce.
